

# Tactical Bond Program

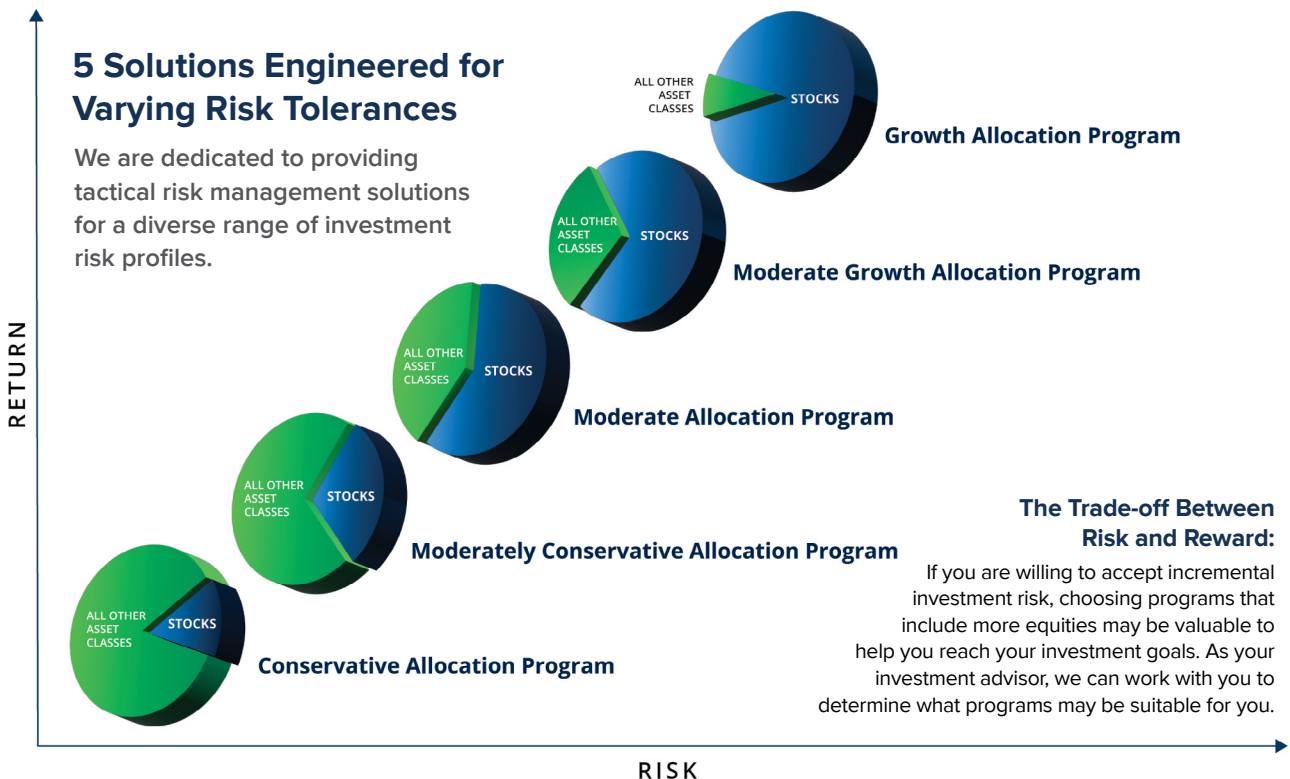

For The Period Ending December 31, 2024

## A Legacy Built Upon Disciplined Risk Management

The Sierra **Tactical Bond Program** (the “Program”) has two objectives, to provide total return and to limit exposure to downside risk.

The Program offers exposure to high yield corporate bonds and long-term Treasuries. The Program will tactically allocate between high yield corporate bond funds, long-term Treasury funds, and cash equivalents and/or short term bond funds.

The Program seeks to participate opportunistically in bond market uptrends. When high yield corporate bonds are in an uptrend, the Program will be invested across several high yield corporate bond funds. When high yield corporate bonds are not in an uptrend, the Program may invest in long-term Treasuries, provided that long-term Treasuries are in an uptrend. Cash equivalents and/or short-term bond funds are held in the absence of uptrends in either high yield corporate bonds or long-term Treasuries. The Program may hold affiliated funds.

**Cash Exposure.** In the absence of buy signals, and/or temporarily following a sell signal, portfolios can have exposure to 100% cash and cash equivalent asset classes. Because our affiliated Funds utilize the same discipline, the Underlying Holdings of any Fund can also have cash exposure. Cash exposure in Sierra Investment Management portfolios therefore considers both the direct cash exposure as well as the cash exposure within the affiliated Funds. Please see our Form ADV Part 2A for information on conflicts of interest that exist as a result of Sierra Investment Management investing in affiliated Funds.
