

California Municipal Bond Program

For The Period Ending March 31, 2025

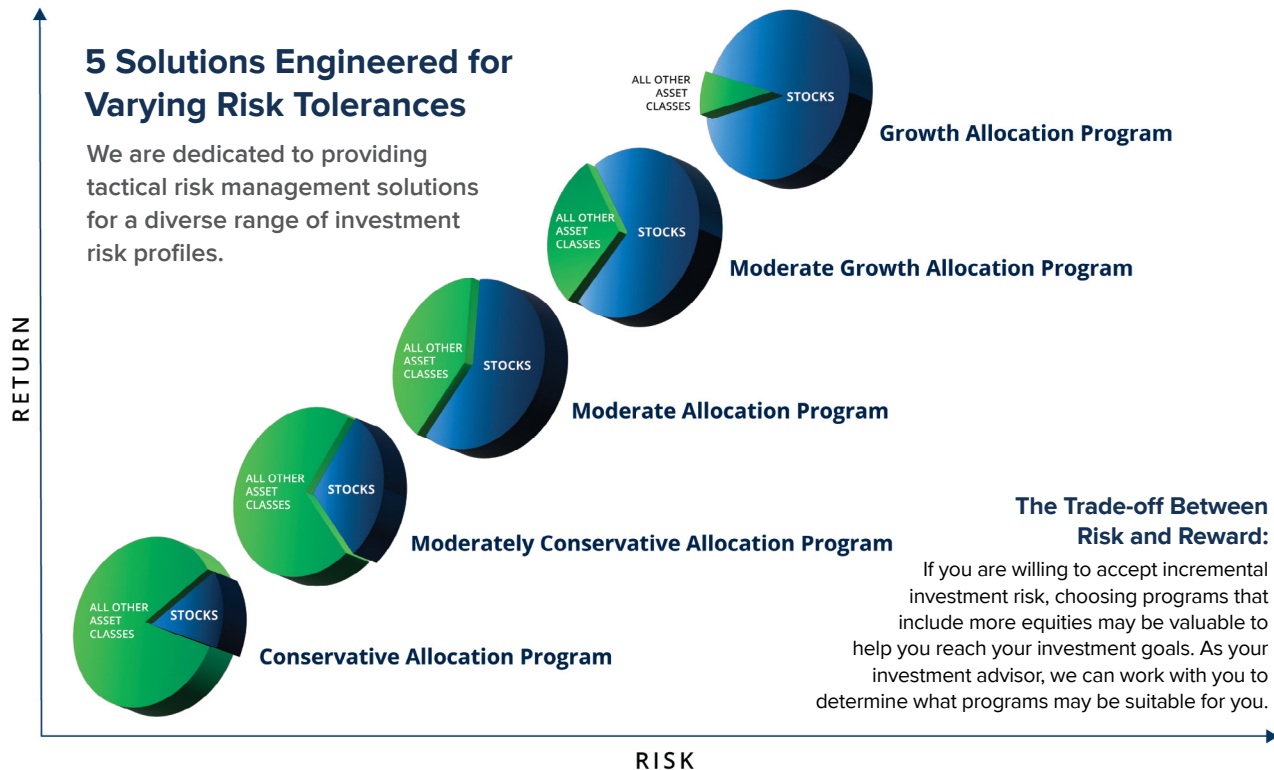

A Legacy Built Upon Disciplined Risk Management

Municipal Bond Programs can be particularly beneficial to individuals or families with high federal tax brackets. In addition to being exempt from federal income tax, the income from municipal bonds may also be exempt from state income tax if the investor purchases securities issued by their home state or by municipalities located in their home state.

The Sierra California Municipal Bond Program has two objectives, to provide total return and to limit exposure to downside risk.

The Program offers exposure to California municipal bonds. The Program will tactically allocate between California municipal bond funds and cash equivalents and/or short term bond funds. The Program will invest in both investment grade and non-investment grade California municipal bond funds. The Program may also invest in national municipal bond funds. The Program seeks to participate opportunistically in California municipal bond market uptrends. Cash equivalents and/or short-term bond funds are held in the absence of uptrends in California municipal bonds.

The Program consists primarily of non-affiliated Registered Funds but may from time to time invest in Affiliated Mutual Funds.

IMPORTANT DISCLOSURES:

Past performance is not an indication of future results and there is no guarantee that any investment strategy will achieve its objectives, generate profits, or avoid losses. All investments involve risk, including loss of principal.

There is no guarantee that any investment strategy will achieve its objectives, generate profits or avoid losses. All investments involve risk, including the risk of loss of principal. More information related to the risks of investing in Sierra Investment Programs can be found in Sierra Investment’s Form ADV Part 2A.

Cash Exposure. In the absence of buy signals, and/or temporarily following a sell signal, portfolios can have exposure to 100% cash and cash equivalent asset classes. Because our affiliated Funds utilize the same discipline, the Underlying Holdings of any Fund can also have cash exposure. Cash exposure in Sierra Investment Management portfolios therefore considers both the direct cash exposure as well as the cash exposure within the affiliated Funds. Please see our Form ADV Part 2A for information on conflicts of interest that exist as a result of Sierra Investment Management investing in affiliated Funds.
